

# Guide to Searching for Matches in the Field

Your team can use Petco Love Lost in the field to search for a pet's owner by uploading a photo and scanning the database for matches. If the pet is microchipped, they can also run a search using the microchip number. This proactive tool helps reunite pets on the spot, reducing shelter intake and easing the strain on resources.

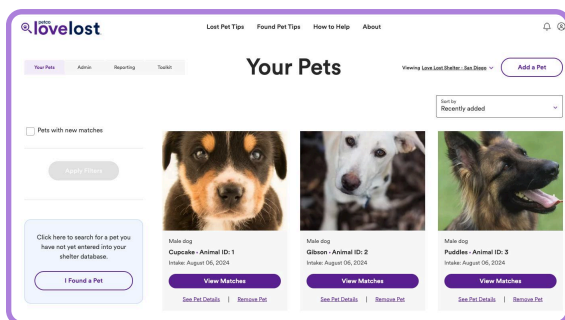

1 Log in to your Petco Love Lost account.

2 Click **I Found a Pet**.

From **Your Pets** dashboard, find the **I Found a Pet** button in the lower left. From there, Petco Love Lost will guide you through a couple of quick steps.

3 Review potential matches.

If you see a match, click to view the contact information of the owner to connect with them directly.

## Petco Love Lost Tip

Does the pet have a microchip? After running an image search you will see **Microchip Search** at the top of the screen, click here and enter the microchip number to see if there are any potential matches. If you see a match, click to view the contact information of the owner to connect with them directly.
